No. FSS7 shown trimming automotive upholstery.

UPHOLSTERY TRIMMERS

- Nos. FSS6 and FSS7 are widely used in auto trim plants for rubber flashing, upholstery, and headliners. Stainless steel to resist rust and corrosive industrial environment. One blade partially serrated for EXTRA gripping power. Oversized, ambidextrous handles. Nos. FSS6 and FSS7 have blunted tips. Nos. FSS6SP and FSS7SP have sharp points.
- No. NK75848 has fine sharp tips and edges for trimming in tight places, and soft, flexible, oversized bows to reduce operator fatigue. Stainless steel blades cut all the way to the tips. Ambidextrous handles.
- No. DG4 has long shanks and short length of cut for high leverage in hard-to-reach places. Sharp tips and edges. Soft, flexible, oversized, ambidextrous bows.

SPECIALTY SCISSORS

- No. 118 Paramedic/Bandage shears have an EXTRA strong safety tip. Hot-forged high quality cutlery steel. Full chrome over nickel. EXTRA high-leverage cutting power for thick, dense materials. Wider, thicker blades prevent spreading at tips.
- Nos. 3750 and 3752 are EXTRA-strong hot-forged shears for wallpaper and other big jobs. Two sharp points.
- 3760-Series are hot-forged office shears with slender, precision-ground blades and two sharp points for cutting all the way to the tips. No. 3768RP has rounded points.
- No. 4100 stainless steel "muscle shears" cut aluminum, canvas, carpet, leather, linoleum, rubber, and many other materials. One blade serrated for firm grip. Big, comfortable ambidextrous plastic handles.
- No. KS91 is for general, all-purpose work throughout a workroom or shop. Thick stainless steel blades cut a wide variety of materials. One blade serrated for firm grip. Large, heavy duty plastic handles.
- No. 126 Pocket Scissors are convenient for small cutting jobs. Stainless steel blades slide inside the plastic case for carrying in pocket.
