

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

Product Name: POWER BEAD ULTRA BLUE SILCONE RTV 9.50Z AE

Stock No.: 85519

Manufacturer Name: Permatex, Inc. 10 Columbus Blvd Hartford, CT 06106

USA

General Phone Number: 1-87-Permatex, (877) 376-2839 800-255-3924

Emergency Phone

Number:

CHEMTREC:

For emergencies in the US, call CHEMTREC: 800-424-9300

MSDS Revision Date: December 30, 2012

(M)SDS Format:

HMIS Health Hazard Fire Hazard 1 Reactivity Personal Х Protection

SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Name	CAS#	Ingredient Percent
Ethyl methyl ketoxime	96-29-7	0.5 - 2.0 by weight
Distillates (petroleum), hydrotreated light; Kerosine - unspecified	64742-47-8	15 -25 by weight
-Butanone, O,O',O''-(ethenylsilylidyne)trioxime	2224-33-1	1 - 5 by weight
tearic Acid	57-11-4	1 - 5 by weight
lcium Carbonate	471-34-1	20 - 30 by weight
mestone	1317-65-3	15 - 25 by weight
imethy siloxane, hydroxy-terminated	70131-67-8	20 - 40 by weight
rogen	7727-37-9	1 - 5 by weight

SECTION 3: HAZARDS IDENTIFICATION

Emergency Overview: $\textbf{CAUTION!} \ \ \textbf{Harmful.} \ \ \textbf{Irritant.} \ \ \textbf{Handle with care.} \ \ \textbf{Contents are under}$

pressure. Excessive pressure and temperature will cause over pressurization and result in container bursting or exploding.

Route of Exposure: Eyes. Skin. Inhalation. Ingestion.

Potential Health Effects:

Chronic Health Effects:

Can cause moderate irritation, burning sensation, tearing, redness, and swelling. Overexposure may cause lacrimation, conjunctivitis, $\,$ Eye:

corneal damage and permanent injury.

Skin: Can cause skin irritation; itching, redness, rashes, hives, burning, and

Inhalation: Respiratory tract irritant. High concentration may cause dizziness,

headache, and anesthetic effects

Ingestion: Causes irritation, a burning sensation of the mouth, throat and gastrointestinal tract and abdominal pain.

Prolonged skin contact may lead to burning associated with severe

reddening, swelling, and possible tissue destruction. Signs/Symptoms: Overexposure can cause headaches, dizziness, nausea, and vomiting.

Target Organs: Eyes. Skin. Respiratory system. Digestive system.

Aggravation of Pre-Existing Individuals with pre-existing skin disorders, asthma, allergies or known

Conditions: sensitization may be more susceptible to the effects of this product.

SECTION 4: FIRST AID MEASURES

Eye Contact: Immediately flush eyes with plenty of water for at least 15 to 20

minutes. Ensure adequate flushing of the eyes by separating the

eyelids with fingers. Get immediate medical attention.

Immediately wash skin with plenty of soap and water for 15 to 20 minutes, while removing contaminated clothing and shoes. Skin Contact:

Get medical attention if irritation develops or persists.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial

respiration or give oxygen by trained personnel. Seek immediate

medical attention.

Indestion: If swallowed, do NOT induce vomiting. Call a physician or poison control

center immediately. Never give anything by mouth to an unconscious

SECTION 5 : FIRE FIGHTING MEASURES

Flash Point: >200°F (93.3°C)

Flash Point Method: Tag closed cup (TCC)

Auto Ignition Temperature: Not determined.

Lim it:

Lower Flammable/Explosive

Not determined.

Upper Flammable/Explosive

I im it:

Not determined.

Evacuate area of unprotected personnel. Use cold water spray to cool fire exposed containers to minimize risk of rupture. Do not enter Fire Fighting Instructions:

confined fire space without full protective gear. If possible, contain fire

run-off water.

Extinguishing Media: Use carbon dioxide (CO2) or dry chemical when fighting fires involving

this material.

As in any fire, wear Self-Contained Breathing Apparatus (SCBA), Protective Equipment:

MSHA/NIOSH (approved or equivalent) and full protective gear.

Unusual Fire Hazards: Contains gas under pressure; may explode if heated.

Hazardous Combustion Oxides of carbon, Oxides of nitrogen, Methyl ethyl ketone, possibly

Byproducts:

methyl ethyl ketoxime, Silica fume, Formaldehyde

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personnel Precautions: Evacuate area and keep unnecessary and unprotected personnel from

entering the spill area

Environmental Precautions: Avoid runoff into storm sewers, ditches, and waterways.

Spill Cleanup Measures: Absorb spill with inert material (e,g., dry sand or earth), then place in a

chemical waste container. Provide ventilation. Clean up spills immediately observing precautions in the protective equipment section.

After removal, flush spill area with soap and water to remove trace residue

Avoid personal contact and breathing vapors or mists. Ventilate area.

Use proper personal protective equipment as listed in section 8.

Other Precautions: Pump or shovel to storage/salvage vessels.

SECTION 7: HANDLING and STORAGE

CAUTION: Compresssed gas. Do not puncture or incinerate container. Avoid contact with skin and eyes. Do not wear contact lenses. Wash Handling:

hands before eating and smoking. Product may cause surfaces to

become slippery.

Store a way from heat. Keep containers tightly closed in a cool, well-ventilated place. Store a way from water or moisture. Storage:

Hygiene Practices: Wash thoroughly after handling

SECTION 8: EXPOSURE CONTROLS, PERSONAL PROTECTION - EXPOSURE GUIDELINES

Engineering Controls: Use appropriate engineering control such as process enclosures, local exhaust ventilation, or other engineering controls to control airborne

levels below recommended exposure limits. Good general ventilation should be sufficient to control airborne levels. Where such systems are not effective wear suitable personal protective equipment, which performs satisfactorily and meets OSHA or other recognized standards. . Consult with local procedures for selection, training, inspection and

maintenance of the personal protective equipment

Eye/Face Protection: Wear appropriate protective glasses or splash goggles as described by

29 CFR 1910.133, OSHA eye and face protection regulation, or the European standard EN 166.

Wear appropriate protective gloves and other protective apparel to Skin Protection Description:

prevent skin contact. Consult manufacturer's data for permeability

Respiratory Protection: A NIOSH approved air-purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances

where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circum stances where air purifying respirators may not provide adequate

Other Protective: Facilities storing or utilizing this material should be equipped with an

eyewash and a deluge shower safety station.

EXPOSURE GUIDELINES

PEL-TWA: 5 mg/m3 Respirable fraction (R)

Nitrogen:

Guideline ACGIH: TLV-TWA: 19.5 %

Only established PEL and TLV values for the ingredients are listed. Notes:

SECTION 9: PHYSICAL and CHEMICAL PROPERTIES

Physical State Appearance: Paste.

Color: Black

Odor: Mild chemical. Boiling Point: Not determined. Melting Point: Not determined.

Specific Gravity: 1.44

Solubility: Polymerized Not determined. Vapor Density: Vapor Pressure: Not determined.

Percent Volatile: < 5

Evaporation Rate: Not determined. Not determined.

Molecular Formula: Mixture Molecular Weight: Mixture

Flash Point: >200°F (93.3°C) Flash Point Method: Tag closed cup (TCC) Auto Ignition Temperature: Not determined.

VOC Content: <4%

Percent Solids by Weight Not determined.

SECTION 10: STABILITY and REACTIVITY

Chemical Stability: Stable under normal temperatures and pressures.

Hazardous Polymerization:

Conditions to Avoid: Extreme heat, sparks, and open flame. Incompatible materials,

oxidizers and oxidizing conditions. Protect against moisture

Incompatible Materials: Oxidizing agents. Strong acids and alkalis.

Special Decomposition

Products:

When heated to temperatures above 300 degrees F, in the presence of air, this product can form formaldehyde vapors. Formaldehyde is a potential cancer hazard and a known skin and respiratory sensitizer. Safe handling conditions may be maintained by keeping vapor concentrations below the OSHA permissible limit for formaldehyde

SECTION 11: TOXICOLOGICAL INFORMATION

Ethyl methyl ketoxime:

RTECS Number: EL9275000

Eye: Eye - Rabbit Standard Draize test .: 100 uL

Skin: Administration onto the skin - Rat LD: >2 gm/kg [Details of toxic

effects not reported other than lethal dose value] Administration onto the skin - Rabbit LD50: 200 uL/kg [Details of toxic

effects not reported other than lethal dose value]

Ingestion: Oral - Rat LD50: 930 mg/kg [Details of toxic effects not reported other

than lethal dose value]
Oral - Mouse LD50: 1 gm/kg [Details of toxic effects not reported other

than lethal dose value]

Distillates (petroleum), hydrotreated light; Kerosine - unspecified:

RTECS Number: OA5504000

Stearic Acid:

RTECS Number: WI2800000

Administration onto the skin - Rabbit : >5 gm/kg [Details of toxic Skin:

effects not reported other than lethal dose value] Administration onto the skin - Human : 75 mg/3D (Intermittent) Administration onto the skin - Rabbit : 500 mg/24H

Calcium Carbonate:

RTECS Number: FF9335000

Oral - Rat LD50: 6450 mg/kg [Details of toxic effects not reported Ingestion:

other than lethal dose value]

<u>Limestone</u>:

RTECS Number: EV9580000

Dimethyl siloxane, hydroxy-terminated:

RTECS Number: VW3168750

Skin:

Administration onto the skin - Rabbit LD50 : >16 mL/kg [Kidney, Ureter, Bladder - Other changes Nutritional and Gross Metabolic - Other

Inhalation: Inhalation - Rat LC50 : >8750 mg/m3/7H [Lungs, Thorax, or

Respiration - Other changes]

Ingestion: Oral - Rat LD50 : >15400 mg/kg [Sense Organs and Special Senses

(Eye) - Ptosis Behavioral - Somnolence (general depressed activity) Kidney, Ureter, Bladder - Urine volume increased]

Nitrogen:

RTECS Number: OW 9700000

SECTION 12: ECOLOGICAL INFORMATION

Eco to x icity: No ecotoxicity data was found for the product.

Environmental Fate: No environmental information found for this product.

SECTION 13: DISPOSAL CONSIDERATIONS

Consult with the US EPA Guidelines listed in 40 CFR Part 261.3 for the Waste Disposal:

classifications of hazardous waste prior to disposal. Furthermore, consult with your state and local waste requirements or guidelines, if applicable, to ensure compliance. Arrange disposal in accordance to the

EPA and/or state and local guidelines.

RCRA Number: Not determined.

SECTION 14: TRANSPORT INFORMATION

DOT Shipping Name: Not Regulated. DOT UN Number: Non regulated.

DOT Exemption: ORM-D Small quantity exemption

SECTION 15: REGULATORY INFORMATION
