

SAFETY DATA SHEET (SDS)

According to 1907/2006/EC, Article 31 Version number 8

Reviewed on 10/01/2012

1 PRODUCT AND COMPANY IDENTIFICATION

Trade name: 182 Soldering Flux

Relevant identified uses of the substance or mixture and uses advised against Soldering Flux

Application of the substance / the preparation: Soldering flux

Details of the supplier of the safety data sheet

This Safety Data Sheet has been updated in accordance with the Globally Harmonized System (GHS). Manufacturer/Supplier:

Kester 800 West Throndale Ave. Itasca, IL 60143 Tel (630) 616-4000 Fax (630) 616-4044

Kester Components Pte Ltd 500 Chai Chee Lane Singapore 469024 Tel: 65-64491133

Information department: SDS Coordinator (630) 616-6844 Emergency telephone number: CHEMTREC 24-Hour Emergency Response Telephone Number : (800) 424-9300 CHEMTREC 24-Hour Emergency Response (Outside US & Canada) Telephone Number : (703) 527-3887

2 HAZARDS IDENTIFICATION

Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008

GHS02 Flame

Flam. Liq. 2 H225 Highly flammable liquid and vapour.

Resp. Sens. 1 H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Eye Irrit. 2A H319 Causes serious eye irritation. Skin Sens. 1 H317 May cause an allergic skin reaction. STOT SE 3 H336 May cause drowsiness or dizziness.

Label elements Labelling according to Regulation (EC) No 1272/2008 The product is classified and labelled according to the CLP regulation. Hazard pictograms

3 COMPOSITION OF MIXTURE

Chemical characterization: Mixtures

Description: Mixture of the substances listed below with nonhazardous additions.

CAS No. Desc	ription		% Range
CAS: 67-63-0 EINECS: 200-661-7	isopropanol	 Flam. Liq. 2, H225 Eye Irrit. 2A, H319; STOT SE 3, H336 	50-100%
CAS: 8050-09-7 EINECS: 232-475-7	Rosin	 Acute Tox. 1, H300 Skin Sens. 1, H317 	10-25%

Additional information:

This solder product does not contain any Substance of Very High Concern (SVHC) on the European Chemicals Agency (ECHA) candidate list.

4 FIRST AID MEASURES

Description of first aid measures

After inhalation: Supply fresh air; consult doctor in case of complaints.

After skin contact: Immediately wash with water and soap and rinse thoroughly.

After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

After swallowing: Seek immediate medical advice.

Information for doctor:

Most important symptoms and effects, both acute and delayed No further relevant information available. Indication of any immediate medical attention and special treatment needed No further relevant information available.

5 FIREFIGHTING MEASURES

Extinguishing media Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water. For safety reasons unsuitable extinguishing agents: Water with full jet Special hazards arising from the substance or mixture In case of fire, the following can be released: Carbon monoxide (CO) Carbon dioxide (CO2) Aliphatic aldehydes Advice for firefighters Protective equipment: Wear self-contained respiratory protective device.

6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures
Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation
Keep away from ignition sources
Environmental precautions: Do not allow to enter sewers/ surface or ground water.
Methods and material for containment and cleaning up:
Ensure adequate ventilation.
Do not flush with water or aqueous cleansing agents
Absorb with clay, dry sand, or other inert material. Do not use combustible materials such as sawdust. Place in a chemical waste container.
Reference to other sections
See Section 7 for information on safe handling.
See Section 13 for disposal information.

7 HANDLING AND STORAGE

Handling:

Precautions for safe handling Store in cool, dry place in tightly closed receptacles. Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols. **Information about protection against explosions and fires:** Keep ignition sources away - Do not smoke. Protect against electrostatic charges.

Conditions for safe storage, including any incompatibilities Storage:

Requirements to be met by storerooms and receptacles: Store in a cool location. Information about storage in one common storage facility: Store away from oxidizing agents. Further information about storage conditions: Keep receptacle tightly sealed. Store in cool, dry conditions in well sealed receptacles. Specific end use(s) No further relevant information available.

8 EXPOSURE CONTROLS / PERSONAL PROTECTION

Additional information about design of technical systems: No further data; see item 7.

Control parameters

Components with limit values that require monitoring at the workplace:

67-63-0 isopropanol

PEL 980 mg/m³, 400 ppm

Additional information:

PEL = Permissible Exposure Limit (OSHA) TLV= Threshold Limit Value (ACGIH) OSHA= Occupational Safety and Health Administration ACGIH= American Conference of Governmental Industrial Hygienists

Exposure controls

Personal protective equipment:

General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

Breathing equipment:

Exposure Controls: Use appropriate engineering control such as process enclosures, local exhaust ventilation to control airborne levels below recommended exposure limits.

When ventilation is not sufficient to remove airborne levels from the breathing zone, a NIOSH safety approved respirator or self-contained breathing apparatus should be worn. Consult with local procedures for selection, training, inspection and maintenance of the personal protective equipment. Protection of hands:

Protective gloves

Material of gloves: Nitrile rubber, NBR Natural rubber, NR Penetration time of glove material: The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed. Eye protection: Safety Glasses with Sideshields at all times.

Face Shield when refilling chemical liquid flux.

9 PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical General Information Appearance: Form:	and chemical properties					
Odor:	Mild					
pH-value:	Not determined.					
Change in condition Melting point/Melting range: Boiling point/Boiling range:	Undetermined. 82℃ (180 F)					
Flash point:	\leq 21°C (\leq 70°F)					
Ignition temperature:	425°C (797 F)					
Auto igniting:	Product is not selfigniting.					
Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures are possible.					
Explosion limits: Lower: Upper:	2.0 Vol % 12.0 Vol %					
Vapor pressure at 20℃ (68 뚜):	43 hPa (32 mm Hg)					
Density at 20℃ (68 ℉):	0.85 g/cm³ (7.093 lbs/gal)					
Solubility in / Miscibility with Water at 20°C (68 °F):	75 %					
Solvent content: Organic solvents:	74.9 %					
Solids content:	25.1 %					

10 STABILITY AND REACTIVITY

Reactivity

Chemical stability Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications. Possibility of hazardous reactions No dangerous reactions known. Conditions to avoid No further relevant information available. Incompatible materials: Strong acids, strong oxidizers. Hazardous decomposition products: Carbon monoxide and carbon dioxide When heated to soldering temperatures, the solvents are evaporated and rosin may be thermally degraded to liberate aliphatic aldehydes and acids.

12 ECOL		INFORMATION

Toxicity

Aquatic toxicity: No further relevant information available. Additional ecological information: General notes: Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system. Results of PBT and vPvB assessment PBT: Not applicable. vPvB: Not applicable.

13 DISPOSAL CONSIDERATIONS

Waste treatment methods

Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Disposal must be made according to official regulations.

Uncleaned packagings:

Recommendation: Disposal must be made according to official regulations.

15 REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

USA The following information relates to product regulation specific to the USA.

SARA (Superfund Amendments and Reauthorization Act)

Section 355 (extremely hazardous substances):

None of the ingredient is listed. Section 313 (Specific toxic chemical listings):

None of the ingredients is listed.

TSCA (Toxic Substances Control Act): Kester certifies that all components listed below for the subject finished product are on the TSCA Inventory of Chemical Substances and are not subject to any chemical specific regulation under TSCA Section 12(b) export notification requirements delineated at 40 CFR part 707, subpart D.

All ingredients are listed or exempt from listing.

California Proposition 65

Chemicals known to cause cancer:

None of the ingredients is listed.

Chemicals known to cause reproductive toxicity:

None of the ingredients is listed.

Carcinogenic categories

EPA (Environmental Protection Agency)

None of the ingredients is listed.

16 OTHER INFORMATION

The information contained herein is based on data considered accurate and is offered solely for information, consideration and investigation. Kester extends no warranties, makes no representations and assumes no responsibility as to the accuracy, completeness or suitability of this data for any purchaser's use. The data on this Material Safety Data Sheet relates only to this product and does not relate to use with any other material or in any process. All chemical products should be used only by, or under the direction of, technically qualified personnel who are aware of the hazards involved and the necessity for reasonable care in handling. Hazard communication regulations require that employees must be trained on how to use a Material Safety Data Sheet as a source for hazard information.
