

KÖGÖ Cleanroom Tape

TPA Series

LDPE with Acrylic Adhesive

Low in Halogens,
Leachable Chlorides
and Heavy Metals

Description

Introducing KÖGÖ Cleanroom Tapes for cleanrooms and critical environments.

KÖGÖ TPA Cleanroom Tape is constructed of a Low Density Polyethylene (LDPE) backing with an acrylic adhesive. This construction is low in halogens, leachable chlorides and heavy metals, providing users with the ideal cleanroom tape solution.

Offered in 5 colors and 4 widths, KÖGÖ TPA cleanroom tape is ideal for color coding and product identification, and its high conformability makes it well suited for sealing and packaging materials in critical environments.

All KÖGÖ cleanroom tapes are uniquely packaged in press-and-seal cleanroom bags providing additional convenience to end users.

Features

- Packaged in reusable press-and-seal cleanroom bags
- Tape widths: 1/2", 1", 2", 3"
- Color options: blue, green, orange, white, clear
- Latex free
- High conformability, adhesion and cohesion
- Low in halogens, leachable chlorides and heavy metals

Benefits

- Easy identification, protection and storage
- Reduces need for cutting or splicing tape with available width options
- Color coding or product identification
- Holds to irregular shapes and creates proper seal/protection

Applications

- Cleanroom packaging
- Color coding
- Labeling
- Low static generation
- Waferbox sealing
