Coax Combination Radial Stripper

One Step

**Two-Level Stripping
on RG Cable Series:**

RG11

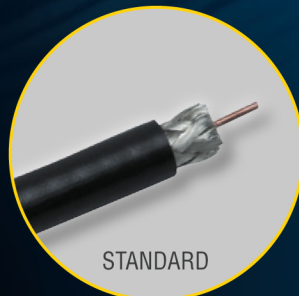

RG7

RG6

RG6-QS

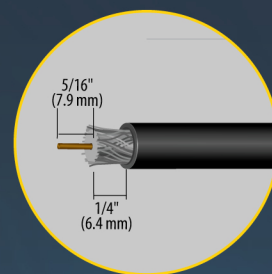

RG59

*Perfect for coax
installers who work with
utility and standard cables.*

For Professionals... Since 1857®

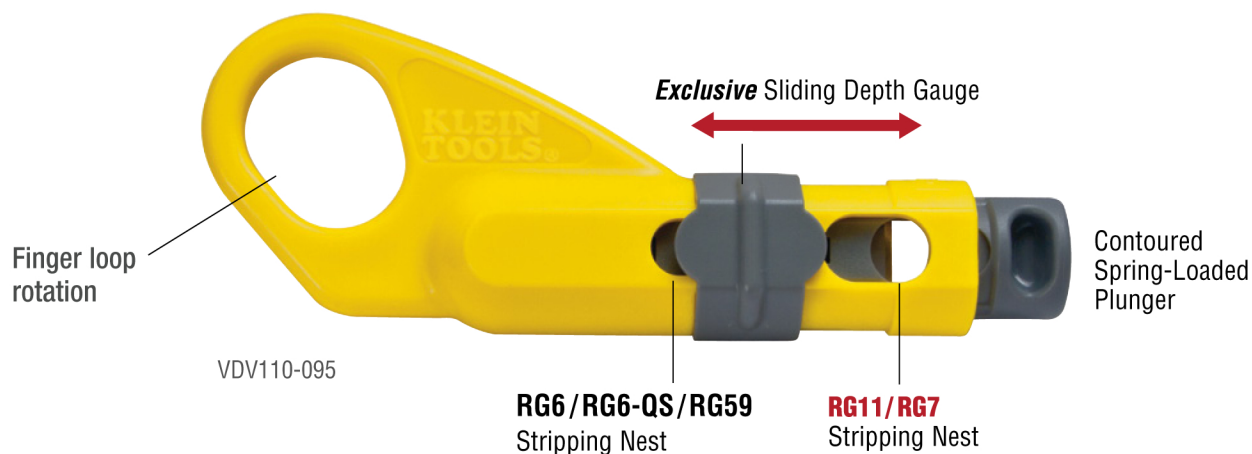

**KLEIN
TOOLS®**

Klein's Coax Combination Radial Stripper works on both standard & utility size cables!

Coax Combination Radial Stripper

Our convenient radial stripper provides **one step**, two-level stripping for both standard cable and larger diameter utility cable series. This Klein tool has an **exclusive** sliding depth gauge that pre-measures cable strips **eliminating guesswork**. The cutting blades automatically adjust to different cable diameters thus making stripping fast and accurate. The combination radial stripper is perfect for audio/visual coax applications.

Features

- Cuts standard and **utility** cables sizes: RG6, RG6-QS, RG59, **RG11, RG7**
- **One step**, two-level stripping saves time
- **Exclusive** sliding depth gauge pre-measures cable for quick, precise and repeatable 5/16" and 1/4" strips
- Durable high-carbon steel cutting blades automatically adjust to different cable diameters
- Finger loop facilitates easy, controlled rotation
- Easy debris clean out
