

**3 YEAR
WARRANTY**

Black/Yellow

Performance: **ULTIMATE**

If you want to be a hero to your employees, buy **UltraSoft Diamond-Plate!**

It provides **unparalleled comfort**, resulting in enhanced employee productivity and morale. UltraSoft's long-term performance and exceptional feel are due to its double-thick Nitricell® Sponge base. Nitricell® is a unique composite loaded with Nitrile rubber for exceptional rebound and resilience. Designed for heavy-use areas, the popular, high-tech diamond-plate surface resists abrasion and most chemical spills, and is available with colored borders for maximum safety awareness. All edges are safety beveled.

Performance: **BEST**

Diamond-Plate SpongeCote is the **original Diamond-Plate** anti-fatigue mat and definitely sets the standard for comfort in the industry. It is, without a doubt, one of the most popular anti-fatigue mats on the market today because it offers the complete package of comfort, enhanced productivity, long-term performance and an industrial image. It is identical to UltraSoft Diamond-Plate with one exception. Its Nitricell® Sponge base is a standard 3/8" thick.

C As an added bonus, both versions can be customized in virtually any width or dimension to fit even the most unique work area.

All Diamond-Plate mats can be Customized!

In fact, we frequently make Diamond-Plate SpongeCote® No. 415, UltraSoft Diamond-Plate No. 414 and now, Diamond-Plate with GritWorks!® No. 416, in custom lengths, widths and unique configurations. If you have a "U" or "L" shaped work area we can make a mat to fit it. If your space requires a circular, oval or triangle mat, simply give us a template.

And if you have cut-outs in odd places, we can accommodate that too. Basically the **sky is the limit** when it comes to customizing Diamond-Plate.

Some mats may require two or more sections depending on size, weight and shipping requirements. Square edges are also available.

Please call for pricing.
