

# GRD550R

## Quik-Lok Adjustable, High-Vis Heel Grounder

### Description

The GRD550R static dissipative non-marking heel grounder is made with extremely bright colors to make it easy to spot when an employee is wearing the proper grounding straps. In addition since they are easily spotted, it also ensures that an employee doesn't wear them home.

These heel grounders connect the person wearing them to ground via a proper floor mat or flooring material. Wearing the conductive ribbon inside the shoe or sock assures proper electrical contact with the user. The ribbon connects to the conductive rubber to complete the circuit between the operator and the static controlled floor or mat.

A buried 1 meg ohm resistor is standard.

**Key Features:** • Stretch Loop closure • Non-Marking • 1.50" cup design

### Product Specifications

Resistor: 1 meg ohm (+/- 5% tolerance), buried  
Color: Green stretch loop, Yellow rubber  
Rubber Exterior: <10e10 ohms, 1.5" wide  
Ribbon: Conductive yarn in gray polyester ribbon

### Product Number

<u>Item Number</u>	<u>Description</u>
GRD550R	Heel Grounder, Stretch loop, Quik-lok 1 meg

*Note: Heel grounders are dependent on foot perspiration in the shoe to create and maintain electrical contact with the body. The GRD550R works reliably with stockings and socks due to the moisture present.*
