

## Wrist Strap Coil Cord with 4mm Snaps

All-Spec Industries carries a series of Black Coil Cords with 1 Megohm Resistor for use with wrist straps that have a 4mm male snap. Both connectors feature strain relief sections to help prevent cord damage due to repeat bending. This product meets or exceeds the requirements of ANSI ESD-S20.20 and ESDA Standard 1.1-2006.

Banana plug connectors work with all common point grounding blocks, bench grounds, wrist strap monitors, and testers. A swivel-type banana jack increases coil life and prevents cord tangles. Cord comes in 6', 12', and 20' lengths.

This series of Black Coil Cord parts include an alligator clip to slide over the banana plug for easy grounding when a terminal is not available.

### PRODUCT SPECIFICATIONS

Name	Value
Conductor Type	Single
Snap Size	4mm female snap
Resistor	1 meg ohm
Ground Connection	Banana Plug, Swivel
Flex Life	>50,000 flexes
Color	Black
