

Wrist Strap Coil Cord with 7mm Snaps

The All-Spec SP1200 Series Black Coil Cord with 1 Megohm Resistor is for use with wrist straps that have a 7mm male snap. Both connectors feature strain relief sections to help prevent cord damage due to repeat bending. This product meets or exceeds the requirements of ANSI ESD-S20.20 and ESDA Standard 1.1-2006.

Banana plug connectors work with all common point grounding blocks, bench grounds, wrist strap monitors, and testers. A swivel-type banana jack increases coil life and prevents cord tangles. Cord comes in 6' and 12' lengths.

The SP1200 Series Black Coil Cord parts include an alligator clip to slide over the banana plug for easy grounding when a terminal is not available.

PRODUCT SPECIFICATIONS

Name	Value
Conductor Type	Single
Snap Size	7mm female snap
Resistor	1 meg ohm
Ground Connection	Banana Plug, Swivel
Flex Life	>50,000 flexes
Color	Black
