

DIVIDER BOXES

Add flexibility with dividable containers. Slide-in dividers allow instant container configuration.

Multi-purpose stack-only LEWISBins+ Divider Box Containers can be divided into compartments on 1.25" centers with easy-to-add dividers. These dividable containers are ideal for use in commercial, industrial, electronics and healthcare markets for storage, assembly, fabrication and distribution applications. Divider Boxes are also stocked in ESD-Safe materials. (See pg. 35-36).

DIVIDER BOXES

- Strong stacking ridge and innovative ribbed walls ensure high performance
- Choose from industry standard container sizes
- Multiple identification options for added flexibility and efficiency
- Load capacity of 40 lbs. per container
- Choose from multiple cover styles for product protection
- Compatible with many kinds of racking, shelving and material handling equipment
- Two snaps included on all containers for use with cardholders (see pg. 14)
- Manufactured in high-density polyethylene

Increase part protection and prevent part migration with Divider Box Containers.

DIVIDER BOXES

Subdivide LEWISBins+ Divider Boxes to increase part protection and prevent part migration. Vertical Dividers are available to maximize efficiency and flexibility. For easy insertion of dividers, NDC containers feature molded-in "no guess" textured divider grid and numbered divider slots. Multiple-height polyethylene dividers are available for all models, excluding DC1025.

Vertical Dividers (below) are available in a variety of heights and are contoured for easy insertion.
