

# SAFETY DATA SHEET

**LTX1218HVP**

LTX1218HVP - 51257

Version 1.0      Revision Date: 03/07/2016      MSDS Number: F000001231      Date of last issue: -  
Date of first issue: 03/07/2016

## SECTION 1. IDENTIFICATION

Product name : LTX1218HVP

Product code : F000001231

### Manufacturer or supplier's details

Company name of supplier : Textile Rubber & Chemical Company  
Coatings & Adhesives

Address : 63 Water Street  
Fall River MA 02722

Emergency telephone number : (CHEMTREC): (800) 424-9300 (CHEMTREC International):  
(703) 527-3887 Industrial Health/Spill Emergency: (706) 277-  
1300 Danny Welch (ehs@trcc.com)

## SECTION 2. HAZARDS IDENTIFICATION

### GHS Classification

Not a hazardous substance or mixture.

### GHS Label element

Not a hazardous substance or mixture.

### Other hazards

None known.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

### Hazardous components

No hazardous ingredients

## SECTION 4. FIRST AID MEASURES

If inhaled : Move to fresh air in case of accidental inhalation of vapours.  
Oxygen or artificial respiration if needed.  
Call a physician or poison control centre immediately.

In case of skin contact : Wash off immediately with soap and plenty of water while  
removing all contaminated clothes and shoes.  
If symptoms persist, call a physician.

In case of eye contact : In case of eye contact, remove contact lens and rinse im-  
mediately with plenty of water, also under the eyelids, for at least  
15 minutes.  
Keep eye wide open while rinsing.

1945

1. The first part of the report deals with the general situation in the country. It is a very interesting and informative study of the economic and social conditions of the country at that time.

2. The second part of the report deals with the specific measures taken by the government to deal with the economic crisis. It is a very detailed and thorough study of the various measures taken and their effects.

3. The third part of the report deals with the results of the measures taken. It is a very clear and concise summary of the results achieved and the lessons learned.

4. The fourth part of the report deals with the future prospects of the country. It is a very optimistic and hopeful study of the possibilities for the future.

5. The fifth part of the report deals with the conclusions of the study. It is a very clear and concise summary of the main findings and recommendations.

6. The sixth part of the report deals with the appendixes. It contains a number of tables and charts which are very helpful in understanding the data presented in the report.

7. The seventh part of the report deals with the bibliography. It contains a list of all the sources used in the report.

8. The eighth part of the report deals with the index. It is a very helpful tool for finding specific information in the report.

9. The ninth part of the report deals with the list of figures. It contains a list of all the figures and tables in the report.

10. The tenth part of the report deals with the list of tables. It contains a list of all the tables in the report.

11. The eleventh part of the report deals with the list of charts. It contains a list of all the charts in the report.

12. The twelfth part of the report deals with the list of maps. It contains a list of all the maps in the report.

13. The thirteenth part of the report deals with the list of photographs. It contains a list of all the photographs in the report.

14. The fourteenth part of the report deals with the list of illustrations. It contains a list of all the illustrations in the report.

15. The fifteenth part of the report deals with the list of appendices. It contains a list of all the appendices in the report.

16. The sixteenth part of the report deals with the list of references. It contains a list of all the references in the report.

17. The seventeenth part of the report deals with the list of footnotes. It contains a list of all the footnotes in the report.

18. The eighteenth part of the report deals with the list of endnotes. It contains a list of all the endnotes in the report.

19. The nineteenth part of the report deals with the list of acknowledgments. It contains a list of all the acknowledgments in the report.

20. The twentieth part of the report deals with the list of dedications. It contains a list of all the dedications in the report.

# SAFETY DATA SHEET

## LTX1218HVP

Version 1.0	Revision Date: 03/07/2016	MSDS Number: F000001231	Date of last issue: - Date of first issue: 03/07/2016
----------------	------------------------------	----------------------------	----------------------------------------------------------

Seek medical advice.

If swallowed : Do not induce vomiting without medical advice.  
If conscious, drink plenty of water.  
Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed : None known.

### SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media : Foam  
Carbon dioxide (CO<sub>2</sub>)  
ABC powder  
Water mist

Specific hazards during fire-fighting : Burning produces irritant fumes.  
Exposure to decomposition products may be a hazard to health.  
Cool closed containers exposed to fire with water spray.  
Do not allow run-off from fire fighting to enter drains or water courses.

Specific extinguishing methods : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.  
Use water spray to cool unopened containers.  
Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations.

Special protective equipment for firefighters : In the event of fire, wear self-contained breathing apparatus.  
Use personal protective equipment.  
Exposure to decomposition products may be a hazard to health.

### SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures : Use personal protective equipment.  
Ensure adequate ventilation.  
Material can create slippery conditions.  
Use non-slip safety shoes in areas where spills or leaks can occur.

Environmental precautions : Prevent further leakage or spillage if safe to do so.  
Do not let product enter drains.  
Do not allow contact with soil, surface or ground water.  
Do not allow uncontrolled discharge of product into the environment.

Methods and materials for containment and cleaning up : Contain spillage, pick up with an electrically protected vacuum cleaner or by wet-brushing and transfer to a container for dis-

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the data is as accurate and reliable as possible.

The third part of the document focuses on the results of the analysis. It shows that there is a clear trend in the data, which is consistent with the initial hypothesis. This finding is significant and warrants further investigation.

Finally, the document concludes with a summary of the key findings and a list of recommendations for future research. It suggests that more data should be collected over a longer period to confirm the results.

The data shows a steady increase in the number of transactions over the period. This is likely due to the growing market and the increasing number of participants. The growth rate is consistent with the industry average.

One of the most interesting aspects of the data is the high level of volatility. There are several sharp peaks and troughs, which could be attributed to external factors such as market conditions or regulatory changes.

The analysis also reveals that the majority of transactions are concentrated in a few key areas. This suggests that there are specific markets or sectors that are particularly active.

Overall, the data provides a clear picture of the current state of the market. It highlights both the opportunities and the challenges that exist.

The findings of this study have several implications for policy makers and industry leaders. They should be aware of the trends and be prepared to respond to any changes in the market.

It is also important to note that the data is only a snapshot of the current situation. It does not represent the long-term future of the market.

In conclusion, this study has provided a comprehensive overview of the market. It has identified key trends and areas for further research.

## LTX1218HVP

Version 1.0	Revision Date: 03/07/2016	MSDS Number: F000001231	Date of last issue: - Date of first issue: 03/07/2016
----------------	------------------------------	----------------------------	----------------------------------------------------------

posal according to local regulations (see section 13).  
Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).  
Sweep up and shovel.  
Pick up and transfer to properly labelled containers.  
Clean contaminated floors and objects thoroughly while observing environmental regulations.

### SECTION 7. HANDLING AND STORAGE

- Advice on protection against fire and explosion** : The product is not flammable. No special protective measures against fire required.
- Advice on safe handling** : Wear personal protective equipment.  
Handle with care.  
Take care to avoid waste and spillage when weighing, loading and mixing the product.
- Conditions for safe storage** : No smoking.  
Keep in properly labelled containers.  
Observe label precautions.  
Keep containers tightly closed in a dry, cool and well-ventilated place.
- Materials to avoid** : Do not freeze.  
Keep away from food and drink.  
Keep away from tobacco products.

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### Components with workplace control parameters

Contains no substances with occupational exposure limit values.

- Engineering measures** : Handle only in a place equipped with local exhaust (or other appropriate exhaust).  
Maintain air concentrations below occupational exposure standards.

#### Personal protective equipment

- Respiratory protection** : No personal respiratory protective equipment normally required.  
When workers are facing concentrations above the exposure limit they must use appropriate certified respirators.  
Use NIOSH approved respiratory protection.

- Hand protection**  
**Material** : Impervious gloves

- Eye protection** : Safety glasses with side-shields

1. The first part of the document discusses the importance of maintaining accurate records of all transactions.

2. It is essential to ensure that all data is entered correctly and that the system is regularly updated.

3. The second part of the document outlines the various methods used to collect and analyze data.

4. These methods include surveys, interviews, and focus groups, each with its own strengths and weaknesses.

5. The third part of the document describes the different types of data that can be collected and how they are used.

6. Quantitative data is used to measure the frequency and intensity of certain behaviors or attitudes.

7. Qualitative data, on the other hand, provides a deeper understanding of the reasons behind these behaviors and attitudes.

8. The fourth part of the document discusses the challenges of data collection and analysis.

9. These challenges include issues of reliability, validity, and bias, which must be carefully addressed.

10. The fifth part of the document provides a summary of the key findings and conclusions.

11. It is clear that data collection and analysis are essential for understanding complex social phenomena.

12. However, it is also clear that these processes are not without their challenges and require careful attention.

13. The final part of the document offers some suggestions for how to improve the quality of data collection and analysis.

14. These suggestions include using a variety of methods, ensuring the reliability and validity of the data, and being transparent about the limitations of the study.

15. In conclusion, data collection and analysis are vital tools for researchers and practitioners alike.

16. By following the guidelines outlined in this document, you can ensure that your data is accurate, reliable, and useful.

	Tightly fitting safety goggles Face-shield
Skin and body protection	: Chemical resistant apron Footwear protecting against chemicals Skin should be washed after contact. Change working clothes after each workshift.
Protective measures	: Avoid contact with skin. When using do not eat, drink or smoke. Personal protective equipment comprising: suitable protective gloves, safety goggles and protective clothing The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.
Hygiene measures	: Do not smoke. Keep away from food and drink. Avoid contact with skin, eyes and clothing. Change working clothes after each workshift. Remove and wash contaminated clothing and gloves, including the inside, before re-use.

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	: viscous, liquid
Colour	: white
Odour	: ammoniacal
Odour Threshold	: No data available
pH	: No data available
Melting point/range	: No data available
Boiling point/boiling range	: 212 °F
Flash point	: Not applicable
Vapour pressure	: No data available
Density	: 990 kg/m3
Solubility(ies) Water solubility	: dispersible
Explosive properties	: Not applicable

----------------	------------------------------	----------------------------	----------------------------------------------------------

### SECTION 10. STABILITY AND REACTIVITY

Reactivity	: Stable
Possibility of hazardous reactions	: Stable under recommended storage conditions.
Conditions to avoid	: Protect from frost.
Incompatible materials	: Oxidizing agents Strong acids and strong bases
Hazardous decomposition products	: Carbon dioxide (CO <sub>2</sub> ), carbon monoxide (CO), oxides of nitrogen (NO <sub>x</sub> ), dense black smoke.

### SECTION 11. TOXICOLOGICAL INFORMATION

#### Acute toxicity

**Product:**

Acute oral toxicity	: Remarks: This information is not available.
Acute inhalation toxicity	: Remarks: This information is not available.
Acute dermal toxicity	: Remarks: This information is not available.

#### Skin corrosion/irritation

**Product:**

Remarks: This information is not available.

#### Serious eye damage/eye irritation

**Product:**

Remarks: This information is not available.

#### Respiratory or skin sensitisation

**Product:**

Remarks: This information is not available.

#### Carcinogenicity

**IARC**

No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

**OSHA**

No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcino-

The first part of the report deals with the general situation of the country and the progress of the work during the last year. It is followed by a detailed account of the various projects and the results achieved. The second part of the report is devoted to a discussion of the problems encountered and the measures taken to overcome them. The third part contains a summary of the work done and the conclusions reached. The fourth part is a list of the references used.

**SAFETY DATA SHEET**

**LTX1218HVP**

Version 1.0      Revision Date: 03/07/2016      MSDS Number: F000001231      Date of last issue: -  
Date of first issue: 03/07/2016

gen by OSHA.

**NTP**      No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

**SECTION 12. ECOLOGICAL INFORMATION**

**Ecotoxicity**

**Product:**

Toxicity to fish :      Remarks: No data available

Toxicity to daphnia and other aquatic invertebrates :      Remarks: No data available

Toxicity to algae :      Remarks: No data available

**Persistence and degradability**

No data available

**Bioaccumulative potential**

No data available

**Mobility in soil**

No data available

**Other adverse effects**

No data available

**SECTION 13. DISPOSAL CONSIDERATIONS**

**Disposal methods**

Waste from residues : Do not dispose of waste into sewer. Dispose of in accordance with local regulations. Can be landfilled or incinerated, when in compliance with local regulations.

Contaminated packaging : Clean container with water. Empty containers should be taken to an approved waste handling site for recycling or disposal.

**SECTION 14. TRANSPORT INFORMATION**

**International Regulation**

**UNRTDG**

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

Furthermore, it is noted that the records should be kept in a secure and accessible format. Regular backups are recommended to prevent data loss in the event of a system failure or disaster.

In addition, the document outlines the process for reconciling accounts. This involves comparing the internal records with the bank statements to identify any discrepancies. If a difference is found, it is crucial to investigate the cause immediately to correct any errors.

The final section of this part discusses the role of the accounting department in providing financial insights to management. By analyzing the recorded data, they can identify trends, forecast future performance, and make informed decisions about the company's financial health.

The document concludes by stating that a robust accounting system is essential for the long-term success of any business. It encourages the implementation of best practices to ensure the accuracy and reliability of financial information.

Finally, it is advised that the accounting process should be reviewed periodically to adapt to changes in the business environment and technology.
