

CleanTube™ Wipe

Knitted tube wipe, 7", 9" and 10" wide, sealed edges, laundered

Description

The CleanTube tubular wipe brings the cleanliness of controlled environment laundering to the automotive industry. Constructed of 100% polyester knit and available in a variety of lengths and textures, CleanTube wipes are ideal for many surface preparation applications in the automotive and other industries.

The durable polyester fabric provides excellent sorbency. The heat cauterized edges naturally roll-up, reducing the potential for contamination from cut fibers and the high-stretch fabric allows for cleaning easily in tight spaces. Originally designed for removing excess sealant, these low-linting wipes are also excellent for cleaning paint automation equipment.

Technical Data

Attribute; (units)	Value **	Test Method
Basis weight; (oz./yd. ²)	4.5	
Sorptive rate; (seconds)	25	
Non-volatile residue, NVR IPA; (g/m ²)	0.065	
Particles, readily releasable P ≥ 3.0µm; (x10 ⁶ /m ²)	1.36	IEST-RP-CC004.2, Sec. 5.1
Fibers > 100µm; (x10 ³ /m ²)	0.0325	IEST-RP-CC004.2, Sec. 5.2

** ND = None detected; levels are below detection limit of test equipment
Melting point for polyester is 450°F

Notes:

- 1) The information presented here is applicable to all CleanTube wipes, as well as to any product containing the same materials and produced under the same conditions, regardless of product size or packaging configuration. Please contact a Contec sales representative for more details. CleanTube wipes are available in Jersey and Lacoste construction in multiple lengths. Data shown are typical values and should not be used as product specifications.
- 2) Valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions.
- 3) Current and/or comparison data may be available. Please contact a Contec sales representative for details.
