

Textured ESD Rubber Matting

All-Spec's textured cut rubber mats & rolls are textured, 2-Layer and ESD-Safe. The matting is designed to be resistant to chemicals while being able to withstand heat from hot soldering irons and molten solder. Ideal for use in electronics production, assembly, service and repair. Creates an ESD-Safe work area by providing a path-to-ground for electrical charges as well as protecting the work surface from damage.

SPECIFICATIONS	
Product Type:	Rubber Matting
ESD-Safe:	Yes
Layers:	2
Color:	Blue, Dark Blue, Green, Gray
Surface:	Textured
Dimension:	Various Sizes Available
Thickness:	.080"
Properties:	Conductive, Static Dissipative
Resistivity RTG:	5×10^7 to $5 \times 10^8 \Omega$
Resistivity RTT:	5×10^7 to $6 \times 10^8 \Omega$
Decay:	0.1s
Tensile Strength:	350 lb/in ² minimum
Standards Met:	ANSI/ESD S20.20 per ANSI/ESD STM4.1

Features

- Made from durable textured ESD-Safe rubber
- Static dissipative top layer with conductive back
- Resistant to most chemicals commonly found in assembly areas
- Withstands heat from soldering guns and solder
- Cut mats include snap hardware and ground cord
