

Pair of Micro Soldering and Desoldering Tips, 2 x 40 W, 12 V

Item No: T0050115999

Production within the electronics, medical technology and aerospace industries is moving faster than ever before, as components become more complex. With a new generation of RTWMS Micro Tips, Weller meets these increasing demands with its Micro tweezers desoldering tips which provide an optimized heat transfer with 2 x 40W maximum power, 12V performance for micro and standard components 0504 to 1608 (M to L). Lock functions make the soldering processes repeatable and transparent. The parallel sliding block allows for increased productivity with the pre-adjusted ready-to-use pairwise tip design.
