

PV-Strip Pro - Part No. 30199

For solar, security and energy cables

Quick and precise stripping of solar, security and energy cables from 1.5 - 16 mm² (16 - 6 AWG). Has four Cutting areas with clear markings (1.5 mm² / 2.5 mm² / 4 mm² + 6 mm² / 10 mm² + 16 mm²). The low weight and the ergonomic shape ensure effective use and good power transmission even in challenging areas of application. The length stop can be adjusted from 5 - 26 mm to suit any solar connector. Additional blade for making a longitudinal cut.

1. Open the tool.
2. Release the blocked position of the length stop. Set the length stop according to the connector model, insert the cable into the appropriate stripping chamber, close the stripper.
3. Squeeze the tool together and turn it about one turn to the right and left.
4. Open the tool and reposition it again slightly behind the cut, bend the cable slightly and strip the cable sheath backwards while the stripper is closed.

Datasheet:

Part No.: 30199

EAN: 4011391301995

HSCode: 82119300

Country of Origin: Germany

Net weight: 52 g

Dimensions (L x B x H): 130 x 38 x 25 mm

1.5 - 16 mm² / 16 - 6 AWG
