Universal All Purpose Degreaser

Universal All Purpose Degreaser was developed to offer much more than just a degreaser. Universal All Purpose Degreaser provides professional users with excellent grease and oil removal, plastic build-up removal and rust inhibitor removal.

PERFORMANCE CHARACTERISTICS:

- Excellent for small cavities
- Fine spray mist with adjustable nozzle
- Leaves NO residue
- Cleans without wiping
- Controlled evaporation
- Convenient adjustable spray tip
- Will not induce bleeding
- Economical

DESCRIPTION:

Universal All Purpose Degreaser is a unique “ion” blend degreaser that cleans greases, oils, rust inhibitors, plastic build-up, etc. from the surface along with penetrating deep into the pores of metals and other surfaces. This product will exceed your highest expectations of what a degreaser is meant to do.

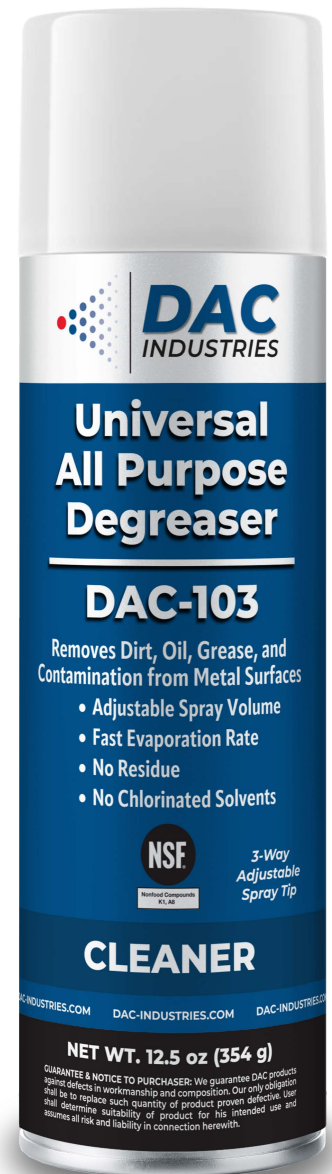

Universal All Purpose Degreaser has unique ion disbursement capabilities providing rapid cleaning and degreasing along with removal of body oil and finger prints, to allow superior application of plating agents and lubricants. DAC’s unique 3 way adjustable spray tip provides variable settings: High spray - for flushing overnight; Medium spray - for removing mold release build-up; and Low spray - for removing plastic residue.

REMOVAL SPECIFICATIONS:

Universal All Purpose Degreaser’s unique formula leaves no residue and requires no removal
