

ESD-Safe Low Lint Knit Nylon Gloves

All-Spec's low-lint, seamless knit nylon and carbon fiber ESD gloves are stretchable, lightweight, and breathable and provide a perfect fit and comfort for all day wear.

- Highly flexible and ergonomic fit
- Reusable (machine washable)
- Excellent protection and fit for electronic device handling and assembly; preventing static shock and particulate contamination
- Designed for dry packing of moisture sensitive devices and to protect contents from damage due to ESD events or EMI
- Protects contents from ESD charges and discharges
- Recommended for assembly-inspection, repair work for electronics, precision instruments and optics, film handling, electrostatic painting and in Munitions, Aerospace, Photo and Petrochemical industries
