

Designed to create quick, clean, and straight cuts in fiber ducts up to 34 mm (1 3/8") in diameter, this duct cutter is perfect for cutting PVC, CPVC, HDPE, and other plastic tubing. The microduct cutter features the following:

- Slim head design to access to microducts in tight spaces
- Triangular blade provides square and straight cuts by holding the tubing in place
- Spring-loaded jaws make it quick and easy to use
- Carbon steel blade with black oxide finish is durable and easily replaceable
- Safety lock keeps tool close when not in use
- Molded ribbed grips for added comfort and grip
- Lifetime Guarantee
